Feel the music

fun ways to play with music!

Listen

There are so many different styles of music. Listen to some with someone in your family. Join in by clapping, drumming on the table or use pots and pans or driftwood rhythm sticks. You could even make your own shaker with an empty toilet roll, paper, tape and rice!

Move

Notice how the different styles of music make you feel. Can you move your body to the music? How can you move to a song that makes you feel happy? How about a song that is slow and peaceful? You could try using a scarf or a ribbon as you move to the music too!

Draw

Gather some paper and pencils and find somewhere comfortable to sit while you listen to samples of different music.

What colour does the music feel like?

Draw patterns, lines, swirls - whatever the music makes you feel! Compare how each style of music looks as a drawing.
